SODIQ ABDULLAHI BIDEMI

FULL-STACK WEB DEVELOPER | REACT & NODE.JS

Ibadan, Nigeria | +2348083135400 | sodiqabdullahi431@gmail.com

Objective

As a freshly graduated Full-Stack Developer, I am skilled in React, Node.js, and MongoDB. I have experience in developing management systems, e-commerce systems, and automation systems driven by AI. Seeking an entry-level role where I can contribute to a development team, apply my skills in React, Node.js, and MongoDB, and continue growing as a forward-thinking developer.

Experience

Hostel Management System | Full-Stack Developer

- Built a web-based platform for managing student hostels, including room allocation, payment tracking, and user authentication.
- Implemented JWT authentication and MongoDB for secure data storage.
- Improved efficiency by automating manual hostel record processes.

Attendance Management System | Full-Stack Developer

- Developed an institution-wide system to record and monitor student attendance.
- Integrated real-time updates and reporting features for administrators.
- Reduced manual errors by digitizing attendance tracking

E-commerce System | Full-Stack Developer

- Designed and implemented an online store with product listings, cart, and checkout functionality.
- Integrated secure authentication and API-driven payment workflow.
- Enhanced user experience with a responsive React frontend.

AI Chatbot Automation | Developer (n8n + AI)

- Created an intelligent customer service chatbot using AI and n8n workflow automation.
- Automated responses to FAQs and integrated with messaging platforms for real-time communication.
- Reduced manual support workload by streamlining customer interaction.

EV Demo Website | Frontend Developer

- Built a responsive demo website for electric vehicle awareness and product showcasing.
- Used React, Tailwind CSS, and API integration for dynamic content.
- Delivered a modern UI/UX optimized for multiple devices.
